

Completing an O-Generator Task

In your Class Overview, you will see you have an assignment. Once you click on it, you should be taken to a page that looks like this:

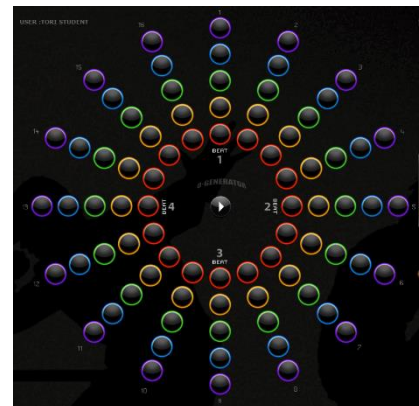

The screenshot shows a task assignment card with a light blue header. On the left is the O-Generator logo. The title is "O-Generator Task" with a due date of "Due: Wed, Feb 12th 11:59pm". On the right is a teal button that says "Open In O-Generator" with an external link icon. Below the header, the task description reads "Read chapter two and then complete the O-Generator lesson on Samba." At the bottom left is a teal button that says "Comment To Teachers".

By clicking on "Open in O-Generator," you will be redirected to your lesson. Make sure to check the task description for any additional materials your teacher may have provided you.

By pressing the "Play" and "Next Step" buttons above the Watch Box, the instructions will take you through the lesson.

Each leg of the wheel represents a sixteenth note. To add a beat, simply click on a colored circle. Look for the guide at the top right to tell you which color represents which instrument.

Once you have gone through every step in the lesson, click on "Submit Lesson" in the lower left-hand corner, and then confirm you would like to submit by selecting "OK." You should see the message below and be redirected back to your MusicFirst Classroom.

All done!
