

Completing a PracticeFirst Task

In your Class Overview, you will see you have an assignment. Once you click on it, you should be taken to a page that looks like this:

By clicking on “Open in PracticeFirst,” you will be redirected to your exercise. Make sure to check the task description for any additional materials your teacher may have provided you.

If there are more than one instrument/vocal type, you can select one in the upper right. If your teacher has assigned a sight-reading exercise, you will not be able to use the playback before you record. If you have been assigned a memorization exercise, the score will not be visible once you record. A normal exercise always allows you to hear the playback and see the score at all times.

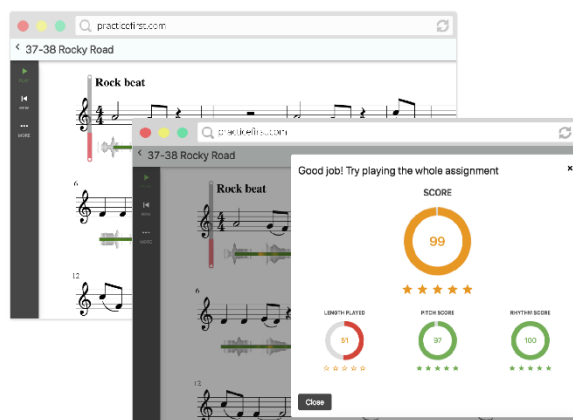

A Major Scale Quarter Notes ☆ ☆ ☆ ☆ ☆

MusicFirst

Flute

♩ = 80

Once you have recorded, it will show you a visual of how you did throughout the exercise, as well as your scores in Pitch, Rhythm, Length Played, and Overall. You teacher might have assigned a grade threshold to meet. You can retry as many times as you would like.

Once you are satisfied with your score, you can click “Submit” and then “OK” to confirm. You should be redirected back to your MusicFirst Classroom to signify that your performance has been successfully submitted. You are all done!
